AURCANA CORPORATION

Notes to the Condensed Interim Consolidated Financial Statements (Expressed in United States dollars, unless otherwise stated)

1. Nature of Operations and going concern

Aurcana Corporation (the “Company” or “Aurcana”) was originally incorporated in Canada under the laws of Ontario in 1917 and on September 14, 1998 was continued under the *Canada Business Corporations Act* (“CBCA”). The Company is currently engaged in the exploration, development and operation of natural resource properties. The Company’s principal development property is the Shafter silver property (“Shafter”), located in Presidio County, southwestern Texas through the Company’s 100% owned US subsidiary, Silver Assets Inc. Shafter is currently on “care and maintenance”. Prior to the Restructuring Agreement referenced below, the Company was also engaged in the production and sale of silver, copper, lead, and zinc concentrates at the La Negra Mine located in Queretaro State, Mexico

The Company’s shares are listed on the TSX Venture Exchange and the head office, principal address, and registered office is located at Suite 850-789 West Pender Street, Vancouver, B.C., V6C 1H2, Canada.

These condensed interim consolidated financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its commitments and realize its assets and discharge its liabilities in the normal course of business. Several adverse conditions and material uncertainties, including low metal prices, cast significant doubt upon the going concern assumption. The Company had current assets of \$1.5 million, a consolidated working capital of \$0.7 million, consolidated deficit of \$202.6 million and net income of \$0.5 million as at and for the period ended on September 30, 2016.

During the last quarter of 2015, the Company entered into a support agreement and an arrangement agreement to effect in the restructuring transaction (the “Restructuring Transaction”) under which all of the debt obligations were extinguished in exchange for the Company’s interest in the Mexican subsidiary that owns the La Negra mine. The Restructuring Transaction was implemented on January 7, 2016.

2. Basis of Preparation

These interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These interim financial statements do not include all the information required for a complete set of IFRS statements. However, selected notes are included to explain events and transactions that are significant to an understanding of the changes in the Company’s financial position and performance since the last annual consolidated financial statements as at and for the year ended December 31, 2014.

These financial statements were approved for issue by the Board of Directors on November 23, 2016.

The Company paid certain transaction fees and costs in the amount of \$1,075,000 in establishing the loan facility, including \$825,000 paid to Orion and \$250,000 paid to third parties.

The loan was advanced on September 19, 2013 and the term of loan was 39 months, with no principal payable until January 31, 2014. Early repayment of the loan could occur at any time without penalty. Interest payable was set at 3 month LIBOR (subject to a 1% minimum) plus 5.5%.

The Company agreed to sell silver and gold produced from Shafter to Orion under the Original Off-take at the prices selected by Orion as either spot price at the delivery date or an average spot price during the first, second, or third week after the delivery date, for either a 6 year period, or until Aurcana has sold a minimum of 27 million Oz of silver, whichever was later, subject to an early buy-out provision.

On April 29, 2014, Aurcana entered into an agreement to amend the terms of its \$50,000,000 Original Loan pursuant to an amended and restated credit facility agreement (the "Amended Loan") between the Company and Orion. The principal amount under the Amended Loan was reduced to \$40,000,000. In an aggregate debt settlement of \$10,333,333, Aurcana issued 16,499,501 common shares of the Company to Orion at an issue price of \$0.62 or C\$0.69 per share, in consideration for reducing the principal amount outstanding under the Original Loan and terminating the Original Offtake agreement in respect of Shafter. The Amended Loan was to be repaid in 48 equal monthly installments commencing May 31, 2014. Early prepayment could occur at any time without charges. Interest on the Amended Loan continued to accrue at a rate equal to LIBOR (subject to a minimum of 1%) plus 5.5% per annum. The Amended Loan was guaranteed by Aurcana's subsidiaries and was also secured against the Company and its subsidiaries' assets.

9. Borrowings (continued)

Concurrent with the execution of the Amended Loan, Aurcana entered into offtake agreements (“New Offtakes”) with Orion in respect of 100% of the copper, zinc, and lead concentrates produced at its La Negra mine for the period from January 1, 2017 to December 31, 2020 (concentrates also have silver content). The Company agreed to sell the concentrates to Orion under the New Offtakes at the prices selected by Orion as an average day spot price for any one of the 10 days following the delivery.

Loan Restructure

The amendment of the Original Loan agreement, termination of the Original Offtake agreement and the New Offtake agreements signed were accounted for as an extinguishment of the Original Loan, Original Offtake and related derivative liabilities. The Original Loan was a hybrid instrument, containing a debt host component and two embedded derivatives – prepayment and interest floor options that require separation as derivatives and that were recorded at fair value. The Original Offtake agreement contained a written price option derivative that was carried at fair value.

Immediately before the restructure of the Original Loan, the carrying value of the Original Loan debt host was \$35.3 million, and the fair value of the Original Offtake derivative and the Original Loan prepayment and interest rate floor derivatives was \$12.7 million. Fair value of the Amended Loan debt host as the date of the restructure was \$35.5 million and the fair value of the New Offtakes and Amended Loan derivative liabilities was \$3.9 million. The Company also issued shares with an aggregate fair value of \$10.3 million in consideration for the settlement of the Original Loan and termination of the Original Offtake agreement.

As a result of the 2014 loan restructure, the Company recognized the following costs:

Loss on loan restructure	\$ 1,875,112
Legal fees	938,529
	<u>\$ 2,813,641</u>

Loan Modification

In order to improve Aurcana’s liquidity in the short term, in July 2014, Orion agreed to defer principal and interest payments on the Amended Loan for July 31st, August 31st, and September 30th, 2014 amounting to approximately \$3.1 million. This amount was amortized over the remainder of the loan period commencing October 2014. In return, the Company extended the New Offtakes by one year, to December 31, 2021. This amendment was accounted for as a modification of the Amended Loan with the resulting changes in the value of the expected cash flows applied to the carrying balance of the loan.

9. Borrowings (continued)

Debt host and embedded derivatives

The New Offtake derivative is a written option and is carried at fair value through profit and loss (“FVTPL”). The Amended Orion loan is a hybrid instrument, containing a debt host component and two embedded derivatives – a prepayment and interest floor options that require separation as derivatives. These features were recorded at fair value at origination.

The debt host component is classified as other financial liability and is measured at amortized cost using the effective interest rate method and the embedded derivatives are classified as FVTPL and all changes in fair value are recorded in profit or loss. The difference between the debt host component and the principal amount of the loan outstanding is accreted to profit or loss over the expected life of the loan. Accretion of \$3.6 million has been recognized for the year ended December 31, 2015 (2014 - \$3.9 million).

Loan Extinguishment

Orion permitted the Company to make interest only payments and defer until August 2015, payments on the principal amount owed from January to July 2015 under the Amended Loan. The Company was unable to meet its payment obligations to Orion for the months of August and September 2015, resulting in a breach of the terms of the Amended Loan.

During the last quarter of 2015, the Company entered into a support agreement and an arrangement agreement with Orion to implement a restructuring transaction (the “Restructuring Transaction”) under which all of the debt obligations due and in default under the Amended Loan would be extinguished in exchange for the Company’s interest in its Mexican subsidiary that owns the La Negra mine. The Restructuring Transaction was implemented on January 7, 2016 (note 5).

10. Provision for Environmental Rehabilitation

The Company has accrued an estimated liability related to reclamation and closure costs at Shafter based on the anticipated total future remediation cost in the amount of \$479,838 (December 31, 2015 - \$479,838). Due to the uncertainty of when the reclamation will take place, the Company did not apply any discount rate or inflation rate (December 31, 2015 – nil %).

The environmental remediation liability is subject to revision based on future mine resource realization, and other factors which affect the costs incurred at future dates such as inflation and discount rates.

Claims to the Company

Trans-Pecos Pipeline, LLC (“Trans Pecos”) is constructing a pipeline that will transport natural gas between the Permian Basin and Presidio, Texas for delivery to customers in Chihuahua, Mexico. The route of the pipeline crosses the Shafter property and, as currently surveyed, may impact upon some aspects of mining-related activities if and when they resume. The pipeline project may have an additional impact on longer-term exploration and development. The Company had been in discussions with representatives of Trans Pecos concerning safety, the near and long-term impacts of a pipeline on the Company and Shafter, and alternate routes for the pipeline easement. In March 2016 the Company was made aware that Trans Pecos filed a lawsuit against RGMC to acquire the proposed easement through exercise of its alleged power of eminent domain. The Company has engaged counsel to challenge the public use of the pipeline project and to ensure it receives fair compensation for the impact of the proposed pipeline on the market value of the property and the Company’s Shafter operations. As of November 2016, Trans Pecos has obtained a statutory right of possession to move forward with construction of its project. This administrative determination is not binding on the Company's right to contest Trans Pecos's project or the amount of compensation owed. The Company will continue to vigorously defend its rights.
